Acting Commissioner

June 4, 2021

Dear Laboratory Manager:

Your fiscal year 2022 (FY22) laboratory certification renewal application has been processed and a Certificate and Annual Certified Parameter List (ACPL) that reflects the current status of your facility are enclosed. If there are any discrepancies, please contact your Laboratory Certification Officer to verify information and make arrangements for a new ACPL. If the Office of Quality Assurance does not receive documentation of any discrepancies before July 9, 2021 this ACPL will be considered final and any changes received thereafter will be treated as a modification application. Effective with the receipt of this letter, your facility's certification status is valid through June 30, 2022. Both the ACPL and Certificate must be conspicuously displayed at your facility in a location on the premises that is visible to the public.

As always, we are available to discuss any comments or questions. Please do not hesitate to contact your laboratory certification officer or me.

Sincerely,

Michele M. Potter
Manager
