Re:

2023-2024 CERTIFICATE - DRINKING WATER CERTIFICATION

Enclosed is your laboratory's drinking water certificate for the year 2023-2024. Please review the certificate and accompanying status sheet(s) – if you find an error please email tiffany.kohl@dhhs.nc.gov and a corrected copy will be sent. Please note: if your laboratory is certified for only unregulated (UR) inorganic parameters under the general chemistry section of your status sheet, this will only be listed on the status sheet and not on the certificate.

If you have any questions, please do not hesitate to call (919) 807-8879.

Frank Ehrenfeld International Asbestos Testing Laboratories 9000 Commerce Parkway, Ste B Mount Laurel, NJ 08054

Dear Mr. Ehrenfeld:

We are pleased to inform you that your laboratory has successfully passed its requirements for the first set of proficiency samples for the 2023 compliance period. Under the current certification program, since all contaminants were successfully analyzed in this set and your laboratory is not testing for microbiological contaminants, nitrate or nitrite, identified as acute health risks, no additional testing is required of your laboratory for 2023.

A complete sample set including all analytes and methods for which your laboratory is certified by North Carolina must be completed in the first quarter of 2024. This must include any contaminants which are added to your certification list throughout 2023.

Please call the Certification Office if you have questions on any aspect of the Drinking Water Laboratory Certification Program.

Sincerely.

Michele Sartin, Supervisor Laboratory Certification Office

North Carolina Department of Health and Human Services State Laboratory of Public Health
