RE: Laboratory Certification  
Lab ID: 41245  
International Asbestos Testing Laboratories  
Out of State  
Acceptance  
Laboratory Certification

Dear Mr. Ehrenfeld:

This office is in receipt of your certificate of accreditation for Asbestos (EPA 100.1 and 100.2) analysis in drinking water that was issued by the State of New Jersey Department of Environmental Protection.

Based on this information and pursuant to Ohio Administrative Code (OAC) Rule 3745-89-02, the analytical results of Asbestos analysis performed by your laboratory on drinking water samples are acceptable to the Ohio EPA for compliance monitoring purposes. This acceptance is effective for Asbestos (EPA 100.1 and 100.2) and will expire on the expiration date given on the laboratory certificate issued by the State of New Jersey Department of Environmental Protection, June 30, 2024.

Your laboratory is required to provide this office with copies of any letters or reports, as they become available, which relate to your acceptance status for Asbestos analysis as determined by the State of New Jersey Department of Environmental Protection.

Your laboratory must maintain satisfactory performance for Asbestos analysis, including the reporting requirements as specified in OAC Rule 3745-89-08, and for laboratory certification requirements to ensure continued acceptance of your drinking water Asbestos analytical data by the Ohio EPA.

Please contact Brian Tarver, Division of Drinking and Ground Waters, at (614) 644-2752 for information on reporting results using the electronic Drinking Water Reports (eDWR).

If you have any questions, please contact me at (614) 644-4222 or [DWLabCert@epa.ohio.gov](mailto:DWLabCert@epa.ohio.gov).

Sincerely,

Julie Spangler  
Supervisor, Laboratory Certification Section  
Division of Environmental Services  
Ohio Environmental Protection Agency
